REMARKS

On June 28, Examiner Appiah granted the undersigned agent a telephonic interview regarding the present invention. The undersigned agent filed a substance of the interview with the Office on July 1, 2005. On July 6, 2005, the undersigned agent phoned Examiner Appiah to follow up on the interview. During that conversation, the Examiner graciously reiterated the interview results and requested that Applicant resubmit the substance of the interview as a formal response to the final Office Action. Accordingly, Applicant respectfully submits this supplemental response to the final Office Action of February 8, 2005.

In view of the Examiner's admissions during the telephone interview of June 28, 2005, and the remarks previously submitted, Applicant submits that all claims define patentable subject matter over the cited references.

At a minimum, Applicant submits that the finality of the February 8, 2005 Office Action be withdrawn.

Finally, the undersigned agent respectfully reiterates his understanding that the Examiner will withdraw the §103 rejections of February 8, 2005, and issue a Notice of Allowance or a non-final Office action, as appropriate. **Because of this understanding, Applicants have deferred appealing the rejections. Therefore, if this understanding is incorrect, the Examiner is respectfully requested to notify the undersigned agent, so that the costs of filing a Notice of Appeal may be minimized.**

Respectfully submitted,
